 ENERGY SUPPLEMENT FOR CALVES

**To increase caloric density of the ration for calves exposed to cold temperatures**

- Provides highly digestible milk proteins and fats designed to increase the calorie content of whole milk or milk replacer.
- Supports calf survival and optimal growth rates during cold weather or other stress.
- Economical source of energy – typically costs less than feeding more milk replacer powder.
- Mixes easily in warm milk or reconstituted milk replacer - no need to switch milk replacers for the winter months.
